ETHYLENE OXIDE CARCINOGENICITY ASSESSMENT

---

The above EAS package was just sent to you, with the below message a few minutes ago ( did not originally include source of money, so read below):

Gwen is listed as the PO/COR of record ( Dr.Fox is the Technical PO/COR), she did most of the support work, I am just handling it while she is out.

**Note also Paul White is a Approver, not a Reviewer.**
